

Compiled by Mary Boudreau Conover 11/20/2010

Abbreviations used in the book:

AA (amino acids or arachidonic acid)
A1c (hemoglobin A1c)
AGEs (advanced glycation end products)
ALA (alpha lipoic acid or alpha-linolenic acid)
BDNF (brain-derived neurotrophic factor)
CCK (Cholecystokinin)
CRP 230-231, (C-reactive protein), 235
CSA (Community-supported agriculture)
(in Canada Community Shared Agriculture)
CVD (cardiovascular disease)
DGLA (dihomo-gamma-linolenic acid)
DHA (docosahexaenoic acid)
EPA (eicosapentaenoic acid)
GLA (gamma-linolenic acid)

HbA1c (hemoglobin A1c or HbA1c)

HGs (Hunter gatherers)
IBS (irritable bowel syndrome)
IGF-1 (insulin-like growth factor-1)
LA (linoleic acid)
NAC (N-acetyl-L-carnitine)
n-3/n-6 (omega-3/omega-6)
NO (nitric oxide)
PA (palmitic acid)
PCBs (polychlorinated biphenyls)
PYY (Peptide YY)
TAGs (triacylglycerides; triglycerides)
TG (transglutaminase)
TVP (textured vegetable protein)
WHR (waist-to-hip ratio)
WGA (wheat germ agglutinin)

A

AA (*see amino acids or arachidonic acid*)
A1c (hemoglobin A1c), 226, **229-230**, 232
inadequate sleep &, 230
statins &, 235
Acid, low stomach, 281
Acid reflux
causes of, 281
cure of, 233
Donny "DOA" & serious, 232, 233
gluten &, 18
grain feeding (cattle) &, 206
Active you vs. sedentary you, 147
Activity (exercise), 123-124
reduced stress & cortisol type, 136-137
Activity (explosive short)
stored glucose &, 63-64
Activity (intense or prolonged)
cortisol levels &, 55
dementia &, 133
downward spiral from, 127
factors that increase, 55
grains, legumes, dairy &, 139
gray matter death &, 133
hyperinsulinism &, 77
immune system lowered by, 55
insulin sensitivity decreased by, 55, 74
leptin sensitivity damage from, 74
low blood sugar &, 69
muscle mass breakdown by, 55

new memories &, 133
"night-life" &, 137-138
osteoporosis &, 77
Parkinson's disease &, 133
protein collagen destabilized by, 129
sleep &, 127
stress &, 127
systems affected by, 143
Addiction, sugar & refined grain, 214-215
Adiponectin
fat &, 105
function of, **54**, 92
geek-speak on, 54
Adrenal stress index (ASI), 143
Advanced glycation end products (AGEs), **70-71**, 150
damage done by, 70, 71
inflexibility &, 157
protection from (muscle mass), 150
Advanced workouts, 193
AGEs (*see advanced glycation end products*)

Aging

accelerated, 57, 69
advanced glycation end products &, 230
AGEs & premature, 70
COX pathway &, 116
flexibility &, 157
forestall, 116
fruits/vegetables & fighting, 203

- IGF-1 &, 55
- insulin &, 51, 52
- leptin &, 53
- modern compared to HG's, 149
- MUFA's &, 110
- osteoporosis (Sally) &, 82
- oxidative damage &, 110
- Piracetam for, 271
- power &, 156
- slowing, 70, 74
- Agricultural revolution, impact of, 38
- Agriculture, 37-43
 - HG change to, 37-39
 - Nicaraguan, 206
 - nutrition scientists &, 42
 - PCBs &, 278
 - transition to, 9
 - U.S. subsidized, 114
- Agriculture-based Hardin Villagers, 40, 208
- ALA (alpha-linolenic acid, 106
- ALA (alpha lipoic acid), 111, 285-286
- Aldosterone, 76-77
- Alex (his story), 81-82
- Algae, DHA from, 279
- Allergies
 - bee sting & peanut, 83
 - chicken, beef, apples, 91
 - development of, 91, 93
 - eggs &, 205
 - have fewer, 135
 - multiple (permeable gut) &, 92
 - Paleo diet &, 24
- Alopecia, 80
- Alpha-linolenic acid (ALA), 106
- Alpha lipoic acid (ALA), 111, 285-286
- Alzheimer's disease
 - exercise for, 178
 - high cortisol levels &, 133
 - hormones, food &, 48
 - IGF-1 &, 56
 - insulin resistance &, 69
 - omega-3 vs. omega-6 &, 115
- American sign language for B.S., 84
- Amino acid proline, 86, 89
- Amino acids (AA) (see also *protein*)
 - conversion into glucose of, 55
 - defined, 49, 89-90
 - "essential", 49
 - fasting fate of, 64
- fate of, 63
- free, single, 60-61
- function of, 63
- glucagon secretion &, 52
- glyconeogenesis &, 55
- incomplete, 208
- insulin & storage of, 52
- ketosis effect on, 65, 66
- labile (flexible), 63
- liver's role for, 63
- muscle reserve for, 150
- normal feeding &, 63
- overfed state &, 67
- pancreatic enzyme action on, 60
- protein reserve for, 150
- structure of, 89-90
- Amylase, salivary, 59
- Amylases as digestive aides, 281-282
- Ancel Keys & McGovern Commission, 103
- Ancestral fitness, 145-195
 - references for, 312-314
- Anchovies, 117
- &rogens, effect of insulin on, 79
- Animal protein & insulin sensitivity, 207
- Anthropology
 - CSI &, 42
 - references for, 289
 - value of, 37-38
- Anthropology professors, quiz of, 38-41
- Anti-inflammatory
 - cortisol, 54-55
 - eicosapentaenoic acid (EPA), 111
 - gamma linolenic acid (GLA), 112-113
 - omega 3 family, 112
 - statins, 235
 - Vitamin D, 273-273
 - wild seafood, 204
- Anti-inflammatory blocker (LA), 112
- Anti-inflammatory drugs, 18
- Antioxidant, alpha lipoic acid, 285
- Antioxidant activities, vitamins C & E, 286
- Antioxidant hormone/neurotransmitter, 135
- Antioxidants
 - depleted store of, 159
 - fat-soluble, 110, 114
 - fruits/vegetables &, 203
 - grass-fed butter, 208
- Antioxidants (cont.)
 - high-dose, 272

- high volume endurance work &, 159
- olive oil, 210
- Apoptosis, 79, 273, 276**
- Appetite control
 - adiponectin &, 54, 105
 - CCK &, 59
 - excellent, 62
 - leptin &, 54, 66-67, 68, 108, 109
 - loss of, 53, 57
 - mechanisms of, 105
 - PYY &, 54, 62, 105
- Apple shape, cause of the, 69
- Arachidonic acid (AA), 113
- Aromatase enzyme, 133
- Aspirin, 116
- Athletic heart described, 152
- Athletic performance, improving, 74
- Athletes' meals, 194-195
- Athletes on Paleo diet
 - Olympic-caliber, 29
 - Paleolithic ancestors &, 148, 149
 - world champion, 22
- Athletes' protein needs, 195
- Autism, 95
- Autobiography, Rob Wolf's, 13-22
- Autoimmune cascade, 88-92
- Autoimmune caveat, 201
- Autoimmune disease, advice if you have, 201
- Autoimmune response short list, 94-95
- Autoimmunity, 18-19, 20, 47, 48, 80, 94, 99
 - books to reverse, 20
 - butter &, 208
 - damaged gut lining &, 94, 96
 - immune response &, 125
 - lectins &, 91-92
 - living free of, 35-36
 - omega-3 fats &, 276
 - omega-3/omega-4-6 &, 115
 - Paleo diet for, 22
 - prolamins &, 86
 - protease inhibitors &, 93
 - vegetarian diet &, 19
 - Vit-D critical for, 273-274
- Avocado's fate in the mouth, 59
- Avocados, MUFA in, 109
- B**
- Bacilli species, 282
- Ball slams, 190-191, 192
- Barley, 18, 84, 85, 88-89, 90
- BDNF (brain-derived neurotrophic factor), 151-152
- Bean sprouts, 98
- Beans & rice, 208-209
- Beef
 - allergies to, 91
 - grass-fed, 205-206
